Safety Intelligence for Corrections

Tier Check Integrity One-Pager

A fast field check: does the record of your round match the reality of the round?

Observation

- ☐ Officer stops at and observes each occupant
- ☐ Can confirm a living person, not just a closed door
- ☐ Cells are not all logged at the same minute

Intervals

- ☐ The interval matches the staffing on shift
- ☐ Watch-level intervals (suicide, medical) are honored
- ☐ Nights and shift change are covered

Blind spots

- ☐ Blind cells and camera angles are identified
- ☐ Lighting is adequate to observe at night

The record

- ☐ Each observation is tied to a specific time
- ☐ A round can be reconstructed honestly after the fact
- ☐ A supervisor reviews exceptions and discrepancies
